Wight Nurseries, Inc., Cairo, Georgia.

Our growing stock in the field should be ready to offer in the fall of 1956. These young plants have made excellent growth this year and look splendid. The few large stock plants we purchased from Wight Nurseries, Inc., came through the severe winter 1954-1955 with little or no damage, so we feel that this new variety will prove to be hardy in this area.

Favorable reports on this new plant are on record from test plants from New England and the Mid-West,
